Senior Research Assistant • Federal Reserve Board

Phone: 203-524-2090 • Email: [B.C.Turner20@gmail.com](mailto:B.C.Turner20@gmail.com) • Citizenship: USA

## EXPERIENCE

### Federal Reserve Board of Governors

Washington, DC

Senior Research Assistant • Flow of Funds Section

March 2018 - Present

- Developed, streamlined, and overhauled data processes for Financial Accounts of the United States and other public-facing projects. Proposed and implemented process changes to increase accuracy of publication. Enhanced knowledge of several statistical languages, especially R.
- Collaborated across Federal Reserve System to develop materials for Board Briefings, Internal Presentations, and ad-hoc Policy Projects. Presented results orally and in writing.
- Explored new research initiatives, spearheaded important analyses, and co-authored two academic papers.

### Major Projects

**Monetary Policy Research Paper** Expanded existing project to measure Mortgage Lenders' responses to Monetary Policy, demonstrating self-motivation and creativity. Spearheaded analysis and created visualizations for use in paper and presentations. Strengthened knowledge of econometric techniques.

**Wealth Effect Research Paper** Studied effect of wealth on worker productivity using PGA Tour Data. Designed creative econometric technique in collaboration with co-author, verified findings, displayed results, and wrote sections of working paper.

**CLOs in the Financial Accounts** Coordinated across Federal Reserve System to examine and verify conflicting data sources. Organized and presented findings for internal dissemination.

**Conversion of Insurance Bond Holdings** Converted Insurance Bond Holdings from Book Value to Market Value. Developed flexible tools in R to reliably extract information from messy underlying data sources. Enhanced subsequent projects by increasing usability of data source.

**Section 529 Plans** Overhauled process for calculating and presenting of Section 529 Plan assets. Saved dozens of man-hours per year and increased process reliability. Learned regular expressions in R.

### The Stanton Foundation

Cambridge, MA

Program Analyst

January 2017 - August 2017

- Constructed data pipeline to oversee and evaluate grant program distributing over \$1M. Published results in K9 Cop Magazine and penned memo to Board on cost-efficiency and viability of program.
- Examined empirical literature on Discount Factors in Private Equity Valuations. Presented findings in writing and in person to Board of Directors and Outside Counsel.
